VENTURA CHAMBER

Chamber Partners Program

To create a strong and prosperous community the Chamber works with local Government, Education and business partners. The attributes of a successful and “livable” City are a strong economy with growing economic activity, capital contributions and a growing job base. A well educated work force is important to support local business, support job growth and attract new businesses into the community. A favorable business climate and public policy, infrastructure, capital investments and job growth are all part of the equation for a strong and prosperous community.

The Chamber works hard towards this goal and to be the most successful, we need the support and participation from our members, our business partners.
